VALDEZ CONVENTION AND CIVIC CENTER

THEATRE TECHNICAL INFORMATION

CIVIC CENTER THEATRE COMPLEX INFORMATION

The envy of many small theatre groups, the Civic Center Theatre has held a wide variety of events ranging from plays, concerts and dance performances to general session meetings during conferences and conventions. (See "Room Rates, Dimensions and Capacities" for a building layout).

AUDIENCE SEATING AND ACCESS

CAPACITY:

420 fixed slant seats, two aisles divide seating into three sections. 6 spaces on the bottom floor section for wheelchair accessibility.

ACCESS:

From lobby: via mezzanine to two doors at high point of audience area via accessible ramp house right to side door at bottom point of audience via hallway with steps house left to side door at bottom point of audience

ACCESS FROM STAGE:

Stairwells stage right and stage left off apron to bottom of audience. There is no access to the audience from center of apron due to Fire Code Regulations.

ACCESSIBILITY:

Accessible ramp house right to bottom of audience. Access to stage via Ballrooms. Green Room and Dressing Rooms are not accessible.

LOADING DOCK AND RAMP

Loading dock and ramp at stage level. Direct access to Theatre and/or Ballrooms through separate 16'H x 12'W loading doors.

Loading area for loading and unloading only; parking prohibited.

DRESSING ROOMS AND GREEN ROOM

ACCESS:

Located directly under stage, accessible by stairs both stage right and left. Handicap access not available to this area.

DRESSING ROOMS:

2 Dressing Rooms both 11' x 17'. Each room can accommodate up to 12 people and include counters, mirrors, wardrobe racks, make up lights, sinks, restrooms and one shower in each room.

Quick-change areas can be set up backstage with lights and mirrors.

STAGE INFORMATION

Curtains and Legs:

Two manual travelers, SR control

House curtain is Colonial Brick, center part manual travel

Full stage curtain is black, center part manual travel

First, second, and third legs have 36' opening, all are black

Cyclorama, legs and curtains are 23' high

Cyclorama is natural/muslin, no movement, front projection only

Borders are 19' above stage floor Black sharks tooth scrim available

MARLEY DANCE FLOOR USE

If your production involves use of the Marley dance floor please note: In order to do a final focus of the electrics over the stage the Civic Center utilizes a scissor lift. The Civic Center will not operate the lift over the dance floor, nor will we allow any sharp or heavy objects placed on top of the floor. Please keep this in mind when planning your load in and tech schedules, and allow for ample time to lay the floor after the light focus is finished.

LIGHTING

Electrics:

3 electric pipes over main stage, counterweight system

#1 electric: 26' 8" in front of cyc
#2 electric: 16'2" in front of cyc
#3 electric: 6'3" in front of cyc

Catwalks:

4 catwalks, 3 over the audience and 1 directly above proscenium. #1 catwalk is closest to control booth.

> #1 catwalk: 58' from proscenium

> #2 catwalk: 38' from proscenium

> #3 catwalk: 16'5" from proscenium

#4 catwalk: directly overhead of proscenium

> Side catwalks also have dimmer outlets

Light Trees:

➤ (4) 10', moveable

> (2) 12' moveable
